📄 ABOUT ME

Qi Chen is currently a postdoctoral research fellow (level B) at the Australian Institute for Machine Learning (AIML), Adelaide University, working with *Prof. Anton van den Hengel* and *A/Prof. Qi Wu*. He obtained his PhD in 2024 from Adelaide University, under the supervision of *A/Prof. Qi Wu* and *Asst. Prof. Yuankai Qi*. He received his Master's and Bachelor's degrees from South China University of Technology (SCUT) under the supervision of *Prof. Jian Chen* and *Prof. Mingkui Tan*.

He focuses mainly on **Multimodal Understanding**, **Multimodal Generation**, and **Medical Image Analysis**. He has **50+** publications, including IEEE TPAMI/ TIP/ TMM, IJCV, CVPR, NeurIPS, ICML, ICCV, etc. His research has attracted **2,000+** citations (Google Scholar, h-index **20**, i10-index **30**). He serves as a reviewer for top-tier journals/conferences, including Nature Communications, IEEE-TPAMI, IJCV, CVPR, ICML, NeurIPS, ICLR, ICCV, etc. He also collaborates with multi-disciplinary teams spanning academia, industry, and health-care, including the University of California, Alibaba Group, the Royal Adelaide Hospital, and SA Health, etc.

🎓 EDUCATION

Adelaide University, Australia 2021 – 2024

PhD at the School of Computer Science, Supervisor: *A/Prof. Qi Wu* & *Asst. Prof. Yuankai Qi*

South China University of Technology (SCUT), China 2017 – 2020

Master at the School of Software Engineering, Supervisor: *Prof. Jian Chen* & *Prof. Mingkui Tan*

South China University of Technology (SCUT), China 2013 – 2017

Bachelor at the School of Software Engineering

⚙️ WORK EXPERIENCE

Postdoctoral Researcher (Level B) 2024 – Present

Australian Institute for Machine Learning (AIML), Adelaide University

Work with *Prof. Anton van den Hengel* and *A/Prof. Qi Wu*

📖 SELECTED PUBLICATIONS (PAST FIVE YEARS) ([†] CORRESPONDING AUTHOR)

1. Collaborative Temporal Consistency Learning for Point-supervised Natural Language Video Localization
Zhuo Tao, Liang Li, Qi Chen[†], Yunbin Tu, Zheng-Jun Zha, Amin Beheshti, Qingming Huang, Yuankai Qi, Ming-Hsuan Yang
International Journal of Computer Vision (**IJCV**), 2026.
2. FairGE: Gated Expert Routing for Intersectional Fairness in Medical Foundation Models
Yuchen Shao, Yutong Xie, Jian Chen, Qi Chen[†]
Medical Image Computing and Computer Assisted Intervention (**MICCAI**), 2026 (**Best Paper Candidate**).
3. OVG-HQ: Online Video Grounding with Hybrid-modal Queries
Runhao Zeng, Jiaqi Mao, Minghao Lai, Minh Hieu Phan, Yanjie Dong, Wei Wang, Qi Chen[†], Xiping Hu
IEEE International Conference on Computer Vision (**ICCV**), 2025.
4. Weak-eval-Strong: Evaluating and Eliciting Lateral Thinking of LLMs with Situation Puzzles
Qi Chen, Bowen Zhang, Gang Wang, Qi Wu
Advances in Neural Information Processing Systems (**NeurIPS**), 2024.
5. WebVLN: Vision-and-Language Navigation on Websites
Qi Chen, Dileepa Pitawela, Chongyang Zhao, Gengze Zhou, Hsiang-Ting Chen, Qi Wu
Association for the Advancement of Artificial Intelligence (**AAAI**), 2024.

6. Learning Distinct and Representative Modes for Image Captioning
Qi Chen, Chaorui Deng, Qi Wu
Advances in Neural Information Processing Systems (**NeurIPS**), 2022.
7. V2C: Visual Voice Cloning
Qi Chen, Mingkui Tan, Yuankai Qi, Jiaqiu Zhou, Yuanqing Li, Qi Wu
IEEE Conference on Computer Vision and Pattern Recognition (**CVPR**), 2022.

ACADEMIC SERVICE

Organization

- ACM Multimedia (ACM MM) Workshop on Agentic Multimodal Intelligence
Leading Organizer 2026
- Visual Intelligence
Associate Editor (AE) 2026
- Journal of Imaging (JCR Q2) Special Issue: Progress & Challenges in Computer Vision & Machine Learning
Guest Editor 2026

Conference and Journal Reviews

- **Conference:** AAAI (Senior PC), CVPR, ICCV, ECCV, NeurIPS, ICML, ICLR, MICCAI, etc.
- **Journal:** Nature Communications, IEEE TPAMI, IEEE TCSVT, IJCV, Pattern Recognition, etc.

TEACHING EXPERIENCE

School of Computer and Mathematical Sciences, Adelaide University

Guest Lecturer

- Artificial Intelligence 2026 Semester 1
- Advanced Topics in Artificial Intelligence and Machine Learning 2026 Semester 1
- Statistical Machine Learning 2025 Semester 2
- Computer Vision 2025 Trimester 2

Teaching Assistant

- Advanced Topics in Computer Science 2023 Semester 1
- Artificial Intelligence and Machine Learning Research Project 2022 Trimester 1 & 2

STUDENT SUPERVISION

- **Gauranga Das** (Ph.D., Adelaide University) – Co-supervisor with A/Prof. Lingqiao Liu May 2026 - present
- **Hanwen Wang** (Ph.D., Adelaide University) – Co-supervisor with Dr. Tim Chen Mar 2024 - present
- **Jinquan Guan** (Ph.D., SCUT) – Co-supervisor with Prof. Jian Chen
- Publications: Scientific Data 2026; MICCAI 2026* Sep 2024 - present
- **Ziyang Fang** (Master, Adelaide University) – Supervisor Oct 2026 - present
- **Yukun Chen** (Master, Adelaide University) – Co-supervisor with A/Prof. Lingqiao Liu May 2026 - present
- **Yuchen Shao** (Master, SCUT) – Co-supervisor with Prof. Jian Chen
- Publication: MICCAI 2026* Sep 2025 - present
- **Hailin Luo** (Master, SCUT) – Co-supervisor with Prof. Mingkui Tan
- Publication: CVPR 2026* Sep 2023 - Jun 2026
- **Zixiong Huang** (Master, SCUT) – Co-supervisor with Prof. Mingkui Tan
- Publications: CVPR 2024 (2 papers); Machine Intelligence Research 2025* Sep 2022 - Jun 2025
